

# The Best Worst Thing

## Things Are Never As Bad As They Seem

The love story between renowned breast cancer surgeon Dr. Amalia Levy and her patient Micha Hadad, a promising politician, starts when the two of them discover, on the very same day, that they have cancer. Breast cancer. So, this isn't quite love at first sight, but more love at first lump.

Amalia's discovery of a malignant tumor in her own breast coincides with her consultation with Micha, the chairman of Israel's political party Horizon. Engrossed in an election campaign, Micha is caught off guard by the life-threatening news and opts to keep it a secret at first. While Amalia, the stern and aloof physician, struggles to relinquish control and adjust to the unfamiliar role of "patient".

As they each grapple with the aftermath of their diagnosis and treatment, and its impact on their professional lives and family dynamics, they find solace in their shared poignant moments and realize that the worst thing that ever happened to them is also the best thing to happen to them.
